

QUIZ #5: "Never Take the Easy Way"

Answer the following questions below.

- 1. Taking the "easy" way destroys your financial future in which of the following ways:**
 - A. By trading your financial future for the "now"
 - B. By not giving you the opportunity to acquire things the correct financial way
 - C. By saddling you with loans that must be paid in your financial future
 - D. All of the above

- 2. Mortgage loans should be outlawed according to this lesson because . . .**
 - A. Mortgages are an unfair financial practice
 - B. Mortgages destroy the wealth of individuals
 - C. Mortgages should not be outlawed according to this lesson – this illustration demonstrated how removing the "easy" way increases financial knowledge
 - D. Mortgages are not sufficiently regulated to protect the general population

- 3. The "hard" way of doing things financially is actually easier because . . .**
 - A. Over a lifetime it will be much easier and provide much more financial benefit.
 - B. The general population has been deceived by the government's financial laws
 - C. "Easier" and "harder" are relative financial terms
 - D. The easier way can only be done a few times before it gets much harder

- 4. Why do our financial "minds" many times "stop?"**
 - A. Age, sociological background, and other relevant factors
 - B. We stop thinking about achieving financial goals after we achieve them the "easy-way"
 - C. Our educational systems program submission to a financial-mind "stopping"
 - D. Bad financial education programs create a "stopping point" in our financial minds

Answer Key: 1. D, 2. C, 3. A, 4. B
